## THE EPIC OF THE DYNAMITED METROPOLIS.

First Los Angeles Writer to Get in and Out of San Francisco Tells Vivid Story of the Terror, the Flight and the Woe of the Ruined People.

HARRY C. CARR of The Times, the first Los Angeles newspaper man to get within the troop-patrolled limits of San Francisco and the only one to get back to Los Angeles, returned yesterday afternoon with a thrilling account of a day spent among the ruins of the devastated metropolis. Mr. Carr left Los Angeles at 8 o'clock on the morning of the earthquake, and after exciting adventures arrived in San Francisco the next day. His description of the situation and pathos of the scene is a modern-day epic.

Valencia Hotel, San Francisco, in which forty people were killed.

### THROUGH LANES OF MISERY.

Returned from Los Angeles for the stricken city on that train whose passengers were nearly all San Franciscoans trying frantically to get back to their wives and homes, fate they could only imagine.

On that terrible day I walked about through the lanes of ruins that had once been San Francisco. I was one of the thousands who robbed grocery stores for their food; one of the thousands who eagerly drank water out of the barrels of the fire engines.

Hours of discouraging failure, of being turned away from the wretches, with the sound of dynamited houses ringing in my ears, I managed at last to join the long caravan of families carrying all the property left to them in sheets.

I walked with the daughter of a Van Ness millionaire lugging a bundle over her shoulder, and a Chinaman moaning piteously over the loss of his home.

Out of San Francisco on that broken-hearted first train, refugees, whose faces streamed with tears as they took the last look from the Pullman windows at the beautiful red fringe of fire creeping along the ridges of the hills, burning the remnants of San Francisco.

Back over all that day of horrors, the most pitiful sights were women, driven from their homes, making new homes in the parks out of a bit of lumber and a few stolen boxes of patent breakfast cereal.

Not a word of complaint and not a tear came from them. It was such elation in families over a new box of looted cereal that they would have been two days before over the ruins of a fortune. Under the veneer of frivolity, they had the hearts of magnificent heroines.

After the first word reached Los Angeles this morning, the Shore Line Limited pulled out of

Arcade Depot. There was an ominous number of reservations for Santa Barbara on the chair car. Most of the San Francisco men came on board there.

Beyond San Luis Obispo, two big freight trains were stalled by a cave-in caused by the earthquake. They crawled out just in time—before every one went mad.

At Salinas, about dark, the conductor came back, shaking his head; a freight train ahead at Pajaro had been completely buried by a mountain of earth hurled in the quake.

The men said it was likely to be a week before any train went through.

Three or four of us hurried into the town looking for an automobile. One of the passengers on the train was Mrs. Robert Louis Stevenson, and the news had been kept from her until this delay.

Strange to say, there were a number of automobiles in town, but none were to be had. We begged and pleaded with two rich farmers to let us have theirs; but they were obstinate swine and would not, for no reason except they did not want to. One man was hurrying through from Los Angeles in his own touring car with his three boys to find his wife, their mother, who was somewhere in the burning city.

## AT LAST.

We were getting ready to hire saddle horses when the twin lights of an automobile came glaring down the street. There were two New England spinsters aboard. They had been in the Palace Hotel when the clerk telephoned to their rooms to tell them the city was burning and that the hotel was about to be blown up by dynamite by the soldiers of the Engineer Corps.

They hired an auto to San Jose at an outrageous price and paid \$75 to be taken from there to Salinas. Had it not been for a bridge which kind Heaven smashed, I guess they would have been going yet. As it was, we persuaded them that the train was the place for them and managed to hire the automobile back to San Jose. The cost was \$20 a seat.

Men came to us and begged like frightened children to be taken; but we dared not risk a breakdown and had to refuse. But never shall I forget the look that was in their eyes.

We started at 10:30 and rode all night. It was bitterly cold and we suffered terribly, not having overcoats. The chauffeur had been using his auto all that morning taking medicines to the demolished insane asylum at Agnews.

His story of the scenes there was horrible. Scores of dead were lying stretched on the lawns and others were walking about hideously wounded. Amid this scene an insane woman, blithely singing little songs of her own making about the earthquake and the killing.

## MANIAC HERO.

One giant maniac had broken his shackles and rescued one of the guards from the building. He had just one sane moment; long enough to be a hero. Then he fled howling into the hills.

It was just dawn when we got to San Jose. Sentries from the militia and special officers were patrolling the streets. A dead line had been established to keep persons away from wrecked buildings. There were jewelry stores whose fronts had been entirely torn off; these would have been plundered.

All through the city we saw people seated on beds on their front lawns, their houses having tumbled. On the front lawn of the Hotel Vendome was a bonfire about which were gathered twenty or thirty people. Every guest of the house had spent the night there with a blanket apiece.

We were just in time to catch the first train to go through to San Francisco. All along the route through such towns as Palo Alto and Belmont, we saw shattered buildings, warehouses with whole sides neatly cut off as though with a knife. One big warehouse of brick had completely buried a freight train standing on a siding.

During the night we could see the dull red glow that came from the burning city. Now we could see the huge copper colored clouds that almost hid the sun. As we came nearer the city we could hear the distant explosions of the dynamite with which the soldiers were wrecking the buildings. They came to us in dull but quick thumps.

## IN THE CITY.

The train got no further than Valencia street. As soon as we got off we saw the first stragglers of the great army of the homeless and ruined.

Sentries stopped us before we had gone a block, so a cheerful good-looking young fellow, who had seen first his home and his tailor shop utterly destroyed that morning, offered to be our guide.

He took us past the Hotel Valencia, which was the worst sufferer from the earthquake. The big building had been literally poured out into the street in a stream of splintered wood. No one knows how many people perished in it.

## SUNK INTO THE GROUND.

On the corner next the Valencia was a new set of three-story flats, just completed, and most of the flats not yet occupied. As though some one had struck it on top with a giant hammer, the entire building had sunk one story into the ground; you could walk right in at the second story.

## NEVER SCENE LIKE THIS.

Turning down into Steiner street, we were caught in the

floor of the strangest tide the world ever saw. There never was anything like this before.

These were people warned to leave their homes from some district newly doomed to the Fire God.

They were trekking, in a long, motley procession, to find some park not already crowded to overflowing.

One of the first that I met was a little family beginning life over again. What they had been able to rescue before the flames came was packed in a little express wagon. The elderly husband was drawing this. Behind him came his wife. With the forethought of a woman, she had either bought or stolen two packages of breakfast food—all that stood between them and starvation. They looked drawn and anxious; and were rather peculiar in this regard.

Most of the refugees leaving their homes were cheerful. I saw a pretty "tailor-made girl" meeting her friend on the street. One of them had a little bundle of things tied in a handkerchief.

"That's everything I own in this world," she said grinning—positively grinning.

"That's nothing," said the other girl, smiling back, "I haven't a rag to my back or a cent of money, and I've lost track of my family somewhere in this crowd."

"Oh, well, what's the use worrying." And with that they parted.

Another touching little group was led by the father, who carried a sheet tied up with what he could carry. The young mother was dragging a child's express wagon laden mostly with provisions. Behind her trooped two sweet little girls. One was wrapped up in a big shawl (this was just after sunrise.) A kitten, which she held in her arms, was poking its nose protestingly out from the shawl. Bringing up the rear was the other little tot, hugging a doll under each arm.

A fine looking young fellow in khaki trousers and a fashionable coat was packing an enormous clothes bundle. His young wife was clinging to his arm. It was everything they had left in the world, probably out of years of hard saving, but they were both almost going along with good spirits.

## BREAKFAST IN GUTTER.

A little further up the street, I saw a refined looking young girl cooking breakfast in the gutter. She wore a handsomely made but badly torn skirt and had a remarkably fine gold bracelet on one wrist. Her oven was made of two bricks and a toasting grill. A young man was bringing her bits of fire wood and they were consulting together over the frying of bacon.

Farther on were two other women doing the same thing and having fun out of it between themselves. Judging from their looks they were women of the town; but they had forgotten it.

## THEN STAGGERED ON.

"Is it so very much farther?" was the only complaint that came from one tired little woman who looked ready to faint. She was staggering under the weight of a huge bundle. She looked unused to work and her lips were white and trembling with exhaustion. She rested just a minute, then staggered on without another word of complaint.

Men spoke kindly to her, but none offered to help her, be-

cause Woe was the great leveler and all were on the same footing. All the day I spent in San Francisco, I only heard one person speak unkindly to another. I wish I had that young man's name, just as a curiosity. He had been hired by a woman to drag a big Roman chair filled with treasures up the street. "There," he said, insolently, "I have earned all the money I got for that; now take it along yourself."

Without a word, the woman took the chair and wheeled it on herself.

One rather amusing group was wheeling an immense and very handsome dining-room table. The young man who was pulling from the front was protesting vigorously; but the two young girls who shoved from behind, digging their stubby fashionable little oxford ties in the dirt for foothold, urged him peremptorily on. Following them was a half-grown hobbled boy, strong enough to have packed an ox, who was doing his heavy share by carrying a little glass vase.

In a doorway half way up the hill, I saw an old Chinaman sitting with his bundle, which was all he had been able to save. He was just saying, "Oh, oh, oh," in a curious, half-sobbing moan that never seemed to cease.

The young tailor with me said the Chinaman had lost his laundry and was terror-stricken lest the white people should make him pay for their clothes.

While his own tailor shop was burning, the young tailor said that he was out trying to rescue the trapped victims in the burning Hotel Brunswick.

He could only get hold of one living man. He seemed to be caught in the wreckage, the smoke being too thick to permit one to see just how. Strong hands caught his feet and pulled desperately. When they dragged him out at last, they found that he had been caught under the chin. In pulling him out they cut his throat almost from ear to ear.

As we gained the top of the hill on Steiner street, a San Francisco man who came in with me on the train stopped dead still. "My God; look there!" he said, his voice catching with a sob.

Through the rift of the buildings we caught our first glimpse of the dying city.

"That was Market street," said the San Francisco man softly.

He pointed across a vast black plain, hundreds of acres in extent, to a row of haggard, gaunt specters that did seem to be in two lines like a street.

## SILHOUETTES.

"There's the City Hall," he said tremulously, pointing to a large dome surmounting a pile of ruins and surrounded like some hellish island with vast stretches of smouldering ashes and twisted iron girders.

The San Francisco man found a tottering blackened pile of wall that he said was Mechanics' Pavilion, and a sort of thin peak of brick that he said was the new Bell Theater. He would go over the town from the top of the hill and torture himself trying to locate San Francisco's splendid landmarks in these acres of ash heap.

Down in the middle of the city I found two young men

# FLAMING FURY TURNS BACK.

Went to a Cowering Dwarf on the Edge of the Western Addition, the Giant Springs Up to Rush for Ferry Building.

(BY THE ASSOCIATED PRESS.—P.M.)

SAN FRANCISCO, April 21.—At 10 o'clock last night, the Postal Telegraph Company abandoned its temporary office in the Ferry Building. The wind, which was blowing a gale, shifted to the northwest, and the flames threatened the Ferry Building destruction.

## WIND BLOWS DOWN WALLS.

The water front emergency hospital is endangered, and the office in charge prepared to move from their quarters. The wind is of such velocity that brick and granite walls, weakened by the earthquake and the subsequent fire, are falling into the street.

Market street, the principal avenue of escape from the city to the Ferry Building, may be blocked up, thus shutting off practically the means of escape.

## GEN. CASTER SENDS FORCES.

Gen. Caster ordered out a squadron of men to endeavor to keep the flames which threatened the Union Ferry depot with destruction.

## OAKLAND REPORTS IT CHECKED.

(BY THE ASSOCIATED PRESS.—P.M.)

OAKLAND, April 21.—It was reported at 11:30 p. m. that the fire in the neighborhood of the Ferry Building had been checked.

Seven fires raged in various sections during the day, and a large number of foreigners were cut off at North Beach wharves. Their fate is in doubt.

San Francisco was opened to travel yesterday, and thousands of people arrived and departed.

Water and food supplies were materially increased, but the need for more was still great.

## WIRE SERVICE CONGESTED.

(BY THE ASSOCIATED PRESS.—P.M.)

SAN FRANCISCO, April 20.—Many residents of Eastern States are attempting to get word to their families, but it is almost impossible to get a message sent before a 24-hour wait. The offices are more than a day behind with messages, so people who have relations here should not worry if they get no word for several days.

SAN FRANCISCO, April 20.—Plunged into absolute darkness last night at 10 o'clock, San Francisco had not seen daylight since the fire broke out. The flames that started at Nob Hill and worked its way to the water front, sweeping that section clean of buildings, veered around by a fierce wind, and made its way to the immense seawall sheds and grain warehouses.

## HEADING TO THE FERRY.

People were heading directly for the immense Ferry Building, the terminal point of all Central overland and local travel.

## WIND ALMOST A GALE.

The wind, which at times amounted to a gale, added fresh terrors to the situation. The authorities considered conditions so grave that it was decided to immediately 1000 special policemen armed with clubs to guard the city.

## NATIONAL GUARD ARRIVING.

Companies of the National Guard were sent to this force, companies of the National Guard were sent to this force.

## THREE WHITE MEN SHOT.

It was reported tonight that three white men had been shot while attempting to work their way into the city.

## TWO CHINESE SHOT.

Two Chinese were shot and killed on Market street for interfering with the fire.

## LOOKING AFTER SEWERS.

Men from the Ocean Shore Railroad were sent to look after the city's sewers, to prevent an epidemic. The United Railways commenced its efforts to clear the streets.

## BABES BEING BORN.

Five women became mothers in Golden Gate. The main remaining fire was confined to east of the city.

## FIFTY ACRES OF FLAMES.

Tonight the fire was raging over fifty acres of the city.

## GREAT EXODUS FROM CITY.

Twenty-five Thousand People Left Yesterday.

Are Carried Free to Any Part of the State.

One of Most Remarkable Scenes Ever Witnessed.

(BY THE ASSOCIATED PRESS.—P.M.)

SAN FRANCISCO, April 20.—Twenty-five thousand persons left devastated San Francisco, today, as many as could be carried by the ferries, and probably twice as many more are seeking to depart tonight.

All those who seek to cross the bay are given to understand that they may go to any point in the State on any transportation line free of charge, but that they may not return. This condition is imposed to relieve the food situation, and is cheerfully complied with by the fleeing people. They are going to every point around the bay, and even to Los Angeles, San Diego and other cities in Southern California. It is anywhere, to get away—anything, but the sight of the skeleton walls and smoking ruins of the city.

OAKLAND GETS MOST. Oakland received the greatest number of the refugees, though Alameda, Sausalito, Vallejo, and every other bay point is crowded to the limit. Hundreds of others trekked southward on the roads leading toward San Mateo, Redwood City and other places on the west side of the bay.

REMARKABLE PROCESSION. The procession began this morning from Golden Gate Park, the Presidio and the north bay shore line as soon as the word went out that it was safe to cross the burned district toward the ferry. There were two great processions to this point, one down Market, the broad thoroughfare, which was the pride of San Francisco; the other from the Presidio along the curving shore line of the North Bay, thence southward along the water front to the central ferry station.

THEIR WEARY WAY. Throughout these routes—probably eight miles long—a continuous flow of humanity dragged their weary way amidst hundreds of vehicles, from the clumsy garbage cart to the modern automobile. Almost every person and every vehicle carried luggage of some description. Women staggered under burdens they were loath to relinquish, stumbling over obstructions of stone and entangling wires; men hauled trunks on wheelbarrows, shouldered suit cases, bedding or household goods; some trundled go-carts, containing their sleeping children, with one hand and assisted their exhausted wives with the other.

DRIVERS DISREGARD THEM. Drivers of vehicles were disregardful of these exhausted, hungry refugees and drove their animals straight through the crowds. So dazed and deadened to all emotion were many of them, that they were bumped aside by carriage wheels or shouldered out of the way by the horses.

IN SCANTY CLOTHING. There were persons with the scantiest sort of clothing—men in shirt sleeves and women in plain skirts and the thinnest of waists—many without hats. Men and women carried children in their arms. It was a strange and weird procession. There was no complaint from anyone—no disorder. There was no apparent realization of the awful calamity. Two awful days and nights had deadened all fear, and left them without other object than to get away.

CONFUSION AT THE FERRY. At the ferry station, there was utter confusion. Mingled in an indescribable mass were people of every race upon the earth. Common misfortune and the paramount emotion of man, hunger, obliterated all racial distinctions. Degraded Chinese, lying on their pallets of rags, slept next to exhausted white women with babies in their arms. Bedding, household furniture of every description, pet animals and bric-a-brac; luggage and packages of every sort packed almost every foot of space. Men spread their bedding on the asphalt pavement, and calmly slept the sleep of exhaustion.

BEDLAM. All around a bedlam of confusion reigned. The scene, in an inadequate description of the scenes that marked the exodus of San Francisco's population. With the added terrors of hunger, this is the situation at the ferry station tonight.

RIO PRESS CONDOLES. NEW YORK, April 20.—[Exclusive Dispatch.] "The Herald this morning published the following: 'RIO DE JANEIRO, Friday.—[To the Editor of The Herald:] We beg to offer our sincere condolences at the destruction wrought by the earthquake and fire in California. [Signed] 'GAZETTA DE NOTICIAS.'"

MILLS SEMINARY SAFE. OAKLAND, April 20.—Mills Seminary, a well-known institution for girls, situated near Fruitvale, suffered but slightly from the earthquake. The educational work is progressing as usual. Some of the faculty and members of the college are aiding in the relief work at Oakland.

GOV. PARDEE BUSY MAN. OAKLAND, April 20.—Gov. Pardee has been an untiring worker in the interests of the sufferers from the earthquake and fire in San Francisco. He came on a forced run to this city on the night of the earthquake and has since been working almost every hour in the office of Mayor Mott in the City Hall.

He has sent hundreds of telegrams to Mayors of towns throughout the West, informing them of the loss which San Francisco has sustained and the needs of the people for food and shelter which would have to be supplied. He has also replied to hundreds of telegrams asking for information on the subject and proffering assistance.

## MANY FINE HOMES HAVE BEEN SAVED.

Checking of the Fire Demon Keeps  
It Within Bounds South of Green-  
wich Street and East of Van Ness  
Avenue—Supplies Arriving Freely.

[BY DIRECT WIRE TO THE TIMES.]

OAKLAND, April 20.—[Exclusive  
Dispatch.] At 10 o'clock this morn-  
ing, it was checked at Greenwich  
street and Van Ness avenue, being  
kept within bounds south of Green-  
wich street and east of Van Ness  
avenue.

This means that much of the finest  
residence district will be saved, in-  
cluding many of the residential palaces  
along Pacific avenue and the other  
thoroughfares running east and west  
of the city.

It also means that a considerable  
portion of the Western Addition and  
of the annexed districts will be saved,  
and there will be no nucleus on which  
to base the reconstruction that is al-  
ready contemplated and being planned.

The foremost men of the city, forget-  
ting their own troubles and the de-  
mands that their own great interests  
make upon them at such a time as  
this, are sacrificing all of their good  
time to the public good. These men,  
whose names are known throughout the  
West and in financial circles through-  
out the country, are engaged to a man  
in the relief work, and are to be seen  
everywhere throughout San Francisco  
and the trans-bay cities, keeping in  
close touch with Mayor Schmitz, and  
working miracles along the adopted  
lines of relief.

Already supplies are beginning to  
pour into Oakland from the North and  
the East, and the fear of a famine  
that was felt yesterday is completely  
disipated. With the Congressional ap-  
propriation, Rockefeller's contribution  
of \$100,000, Portland's contribution  
of \$100,000, Seattle's \$40,000 and  
a score of thousands from Oakland,  
in addition to the vast sum the latter  
will spend within her own boundaries

for the sufferers who have come here  
from San Francisco, the dread of fur-  
ther disaster is entirely dispated.

**GREAT PRESIDIO CAMP.**  
ARRIVAL OF NEWSPAPERS.

[BY DIRECT WIRE TO THE TIMES.]  
OAKLAND, April 20.—[Exclusive  
Dispatch.] Fifty thousand people,  
driven from their homes and most of  
them possessed of little more than life  
itself and the raiment on their bodies,  
are camped at the Presidio, the great  
military reservation on the outskirts of  
San Francisco. Here martial law pre-  
vails that is martial in every sense of  
the word. The only passes recognized  
are those bearing the signature of Gen.  
Frederick Funston, and a police officer  
in uniform, who tried to force his way  
through the guard lines, was badly  
bayoneted this morning for his temer-  
ity.

**THE PAPERS OUT AGAIN.**  
The papers published on the Oakland  
presses this morning by the San Fran-  
cisco Call, Chronicle and Examiner  
were eagerly seized when they reached  
the Presidio, and every human being  
fortunate enough to secure one was  
immediately made the center of a crowd  
of hundreds, all eager to know of the  
progress of the fire, which they were  
restrained from witnessing. Many were  
nearly crazed with grief, because of  
fear that dear ones had fallen victims  
to the fire demon.

Admirable system rules at the Presidio  
and with the trains that have arrived  
from Los Angeles and other points  
south and north, bringing physicians,  
tents, food and water, there is no fear  
of any distress further than that which  
stems from the very nature of things.  
The people quartered at the Presidio  
are in most capable hands, and will  
be well cared for.

## BERKELEY BECOMES FIELD OF REFUGE.

[BY THE ASSOCIATED PRESS—P.M.]

BERKELEY, April 20.—This entire  
city has been organized into one  
great relief committee. For every  
refugee that comes to the college town  
there are several people who stand  
ready to care for him, advise him  
where to go, and guide him there if  
necessary.

The city has forgotten everything  
except the one duty of helping the  
poor strangers who have been burned  
out of their homes across the bay.  
Hundreds of college girls have aban-  
doned their classes and studies to as-  
sist in the charitable work. The stu-  
dents are either patrolling the streets  
here or in San Francisco, where many  
were sent, or are helping in caring  
for the thousands of strangers. All  
who come are quickly cared for, and  
given food and shelter.

On the college campus, where the  
green turf is always inviting to the  
weary, and where the great, gnarled  
oaks afford considerable shelter from  
the dampness and chill of the night air,  
hundreds of homeless folk found a  
comfortable bed.

In the baseball grounds hay and  
straw have been spread in large quan-  
tities, and those who had brought with  
them blankets and quilts were enabled  
to find a comfortable bed.

To assure them a rest undisturbed  
by marauders and thieves, a com-  
pany of cadets patrolled the grounds  
all night.

Those who could be accommodated  
were given shelter in the churches, the  
Elks' Hall, Native Sons' Hall, Odd  
Fellows' Hall, Y.M.C.A., the Univer-  
sity Y.M.C.A. and the Y.W.C.A.  
Stiles' Hall had its slumbers  
stretched out upon the gymnasium  
and auditorium floors.

An improvised emergency hospital  
was set up in Odd Fellows' Hall, where  
early today a half-hundred injured  
were treated. Some were suffering  
from terrible burns; others were cut  
and lacerated, and some had broken  
bones which required setting.

At the patients lay on the cots they  
told heart-rending tales of narrow es-  
capes. Some with tears streaming

down their smoke-besmirched faces  
thanked God that they were among  
the living.

In many instances, after a patient  
has been treated and relieved of his  
physical suffering, the terrible mental  
strain undergone would break forth in  
a hysterical spell.

**SOME DAMAGE AT EUREKA.**  
[BY THE ASSOCIATED PRESS—P.M.]  
EUREKA, April 20.—The earthquake  
Wednesday did considerable damage  
throughout Humboldt county. There  
was no loss of life at Eureka. There  
were, however, several large buildings  
wrecked and damage to a large amount  
from breaking of windows and falling  
chimneys. The public buildings were  
unharmd. At Ferndale, two brick store  
buildings collapsed, besides several  
frame structures.

**FORTY KILLED AT SANTA ROSA.**  
[BY THE ASSOCIATED PRESS—A.M.]  
SACRAMENTO, April 20.—State Con-  
troller E. P. Colgan, who is at his old  
home town, Santa Rosa, telephones that  
stories are being taken for the re-  
lief of the destitute.

Last night was a horrible one for  
the refugees. Most of them were with-  
out food or water; their sufferings were  
terrible.

Bakers are starting today and  
bread is being sent over from Oak-  
land.

Supplies of bread and milk are need-  
ed immediately.

Swift & Co. have 500,000 pounds of  
canned beef at South San Francisco;  
this will be of material assistance.

ready flicking at these wharves, and the  
problem confronting the authorities  
is a grave one. Efforts are being made  
to secure ferryboats, which will be  
laid alongside the wharves, and  
which are large enough to accommodate  
the men, women and children who must  
perish if not taken to places of safety.  
There are tugs and launches to be  
had, but these are not commodious  
enough to take the thousands off the  
wharves in time to save them from the  
flames. It must be ferryboats or noth-  
ing.

There was an inchoant panic on the  
wharves when the flames were seen to  
be approaching, but detachments of  
troops were promptly landed. They  
have succeeded in partially persuading

the ignorant and thoroughly fright-  
ened that there is no immediate  
danger; that they will be taken away  
in time.

Pestilence has already showed its  
head. As a result of lack of water and  
sewers, disease is fast overtaking the  
sufferers. It will be necessary to get  
thousands of them out of the city  
quickly. There were ten deaths last  
night.

Every train from San Francisco to  
Berkeley is bringing hundreds of refu-  
gees from that city. It is estimated that  
at least 6000 homeless persons have  
come here, and on account of the large  
influx the city has practically been  
placed under martial law.

## FIENDS INCARNATE RAVAGE THE STRICKEN.

[BY DIRECT WIRE TO THE TIMES.]

OAKLAND, April 20.—[Exclusive Dispatch.] Fiends incarnate made a hell broth of the center of the ruined district last night.

Rapine and vice, assault, robbery and desecration of the dead were included in the unspeakable horrors.

### NOW LIE STINKING.

There was short shrift for at least a score of these bestial wretches. This morning they lie stinking in the streets with bullet holes or bayonet thrusts through their vitals.

### SHOT BY SOLDIERS.

Sixteen men were shot down by soldiers, as they were caught robbing the dead or attempting assault on unprotected women and helpless girls.

### SEVERED DEAD WOMAN'S WRIST.

Near Washington Park a wretch was caught in the very act of severing a dead woman's wrist from her body, in order to secure a diamond set bracelet. Soldiers rushed toward him and he started on a run, firing a revolver at them several times.

### THRUST THROUGH BY BAYONETS.

As he attempted to pass through the lines he was thrust through by three bayonets. The body of the wretch was cast aside into an alley like refuse on a dunghill.

### LYNCHING ON MARKET STREET.

On Market street a man was found cutting a finger from a corpse to get possession of a diamond ring. He was promptly lynched. He was strung up to a standard with wire and his neck broken.

No mercy is shown looters by the soldiers. They are shot or bayoneted without parley.

### BECOMING FRANTIC FOR FOOD.

People on the water front and in the North Beach district are becoming frantic for food. At 10 o'clock this morning, several large warehouses were thrown open to them, and there was a riot among refugees while attempting to get canned goods and flour. Soldiers finally had to force the mob back with their bayonets.

Wagons passing through this district are beset and stripped of all goods that can be converted into food.

There has been great suffering for want of drinking water. Today this is relieved by placing water stations on East street.

### DEAD LIE IN MANY STREETS.

The dead lay in many streets this morning. It is impossible to fairly estimate their number.

One report says fully 700 bodies were gathered up since daylight.

Bodies may now be seen on nearly every street in North Beach district and along the water front.

### HILLS ARE SWEEPED.

The hills are swept clean of buildings. One hundred and fifty thousand people are quartered in Golden Gate Park.

### TWENTY NEW HOSPITALS.

Twenty new hospital stations have been opened for first care of wounded.

### QUAKE LOSSES BARRED.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, April 20.—Officers of the large fire insurance companies having their headquarters in this city announce that losses by earthquake were not included in the fire insurance policies written for California, and that such losses could not be allowed, even if the companies were so inclined, for the reason that the laws of New York State prohibited it.

The rulings on the losses by fire, however, will, it is said, be broad, the insurance companies agreeing that to draw the lines with any severity whatsoever would be extremely unwise, in the face of such an appalling disaster, where the suffering will no doubt be widespread.

### OAKLAND BECOMES METROPOLIS.

[BY DIRECT WIRE TO THE TIMES.]

OAKLAND, April 20.—[Exclusive Dispatch.] Numerous San Francisco wholesale houses will open temporary offices at once in Oakland.

The Southern Pacific has leased twenty-five rooms in the Union Savings Bank building, and will establish its printing plant here. State Bank Commissioners take offices in the Syndicate building on Broadway.

San Francisco banks will reopen here, and remain until they can rebuild across the bay.

### REPAIRING BUSINESS BLOCKS.

Large forces of men started this morning to repair Oakland's damaged business blocks. Demands for office space are enormous. Oakland business men are subletting sections of their rooms at prices sufficient to pay their entire rents.

### CARRYING PEOPLE ACROSS.

Tugboats and steamers today were impressed into service by government authorities to carry people from San Francisco's water front to San Pablo, Berkeley and Alameda.

### WORKING ALL NIGHT.

Corps of soldiers will work all night gathering up dead bodies, so that danger of outbreak of pestilence may be lessened. Two parks are used as temporary burial places.

Telegraph and sixteenth streets, Oakland. Fallen roof. Estimated damage \$10,000.

## PREPARED FOOD AND CASH CHIEF WANTS.

*Cities and Towns of Whole Pacific Coast and the Continent Generally Respond Most Generously to Appeal. Everybody Baking and Packing.*

[BY THE ASSOCIATED PRESS—P.M.]

SACRAMENTO, April 20.—Lieut. Gov. Alden Anderson, who is assisting with the work at the Governor's office, gave the following statement to the Associated Press this afternoon as an answer to numerous inquiries received from various places asking what to contribute and to whom to send it. It was prepared after conferring over the telephone with the Governor, who is in Oakland:

"Three-fourths of San Francisco, including factories and all the wholesale district, has been burned. Thousands of people are homeless and destitute and must have food and supplies for some time.

"Nearly places should send prepared food, such as bread, crackers, canned goods, cured meats, etc.

"Those making cash contributions should send currency or coin, so it can become immediately available.

"Send supplies or money to General Relief Committee, c/o Mayor E. E. Schmitz, San Francisco."

Numerous inquiries from the East indicate widespread belief that Sacramento is partially or completely demolished. Not a dollar's damage done. Not a crack in a building or a person injured.

STOCKTON HURRYING FOOD. STOCKTON, April 20.—Stockton is hurrying food to San Francisco. Last night a boat load of 400 tons went down and today two more are en route.

Every bakery in town will be baking bread tonight from flour ground at the local mill, which have been started up for the purpose.

Stockton has appropriated the \$1000 Fourth of July money for the sufferers. The public schools have joined the relief movement.

Secretary Brown of the Chamber of Commerce has been called. It is expected he will be here today and will be in the city for the purpose of determining the relief movement.

WON'T PERMIT EXTORTION. OAKLAND, April 20.—Mayor Mott has issued the following proclamation: "To whom it may concern: The city government requests the lodgings and food supplies be offered for sale at usual rates, notwithstanding the disaster."

"In the event of exorbitant prices being demanded for lodgings or food supplies, the military authorities will be given power under proper direction to take into possession said lodgings or supplies, compensation for same to be determined later by the courts."

SEATTLE FUND \$80,000. SEATTLE, April 20.—The fund raised by Seattle to aid San Francisco sufferers now exceeds \$80,000. The City Council appropriated \$10,000; the local banks raised \$10,000; the Seattle Chamber of Commerce \$20,000. Subscriptions are still pouring in. Provisions and clothing that will fill a train and a boat are now being loaded for immediate shipment.

TACOMA PREPARES FOOD. TACOMA, April 20.—On the steamship Queen and Nelson, leaving Tacoma for San Francisco yesterday, was shipped \$10,000 worth of prepared food contributed through the Chamber of Commerce.

ALL RENO BAKES BREAD. RENO, April 20.—Reno today raised \$10,000 for the sufferers in San Francisco, and money is being poured in. Six carloads of provisions have been shipped. Wholesale have stripped their warehouses at the request of the Relief Committee headed by Mayor Wilson. The entire city took a holiday and baked bread, made sandwiches and loaded cars with clothes and food.

CANADIANS GIVE COIN. VICTORIA (B. C.) April 20.—The

steamer Telus will leave here at 5 p.m., with provisions to aid the distress at San Francisco. The Canadian Bank of Commerce has subscribed \$25,000 to the relief of the sufferers.

FRESNO OFFERS REFUGE. FRESNO, April 20.—Gov. Pardee, Oakland: Fresno can take three thousand, but prefers women and children. Committee will report to you in the morning to receive them.

REDLANDS TO RAISE \$14,000. REDLANDS, April 20.—The Citizens' Committee on the relief fund for earthquake sufferers today raised nearly \$9,000. Redlands will contribute upward of \$14,000 cash, and clothing and food.

PRESIDENT GIVES \$1000. (BY THE ASSOCIATED PRESS—P.M.) PRESIDENT (APRIL) April 20.—The City Council tonight passed resolutions of sympathy and wired Mayor Schmitz to draw on this municipality, through the Mayor, for a thousand dollars.

VANCOUVER'S CONTRIBUTION. VANCOUVER (B. C.) April 20.—Van-cou-ver's contribution to the distressed in San Francisco will not be less than \$10,000. The City Council has voted \$2500.

BORDERING ON PANIC. Chicago Insurance Men Say Many of the Smaller Companies Will Be Forced to the Wall.

SATURDAY A HOLIDAY. (BY THE ASSOCIATED PRESS—A.M.) SACRAMENTO, April 20.—Gov. Pardee today issued a proclamation declaring tomorrow (Saturday) a legal holiday.

ASKS FOR SQUADRON. (BY THE ASSOCIATED PRESS—A.M.) OAKLAND, April 20.—Gov. Pardee today wired to the President asking him to send the Pacific squadron to San Francisco with all possible speed, in order that the marines may help the unfortunate sufferers, and also that the supplies of the squadron may be used for the relief of the needy.

STATE HEADQUARTERS. Gov. Pardee has established headquarters in Oakland at the City Hall. All persons seeking entry into San Francisco must apply to him.

A great number of telegrams from all parts of the United States extending sympathy and offering aid were received at the Governor's office this morning.

nies will be hard pressed to fulfill all their obligations.

The total amount of liability involved now is placed at more than \$100,000,000 in San Francisco alone. This amount, which the fire insurance companies will be called upon to meet is considered conservative. Added to the losses in San Francisco will be at least \$50,000,000 loss to be met in other cities, making the total more than \$200,000,000.

Insurance men here are worried to a degree bordering on a panic.

"SOUTH OF THE TEHACHEPI."

NEWS SUMMARY OF THE SOUTH-ERN COUNTRIES.

From the many cities, towns, villages and hamlets of Southern California, are pouring forth generous contributions of money, provisions and clothing for the relief of the San Francisco sufferers.

The Boards of Trade, Chambers of Commerce and various organizations are active in the efforts for succor. The children of the public schools are doing yeoman service.

Hollywood was breathless last night because of all the available supply being dispatched to San Francisco.

Pasadena city officials, including the Mayor and many rich citizens, labored hard in the hot sun yesterday, wrapping donations and receiving funds for the stricken at San Francisco. Many automobiles, with their owners in attendance, formed a procession to and from the City Hall all day, delivering articles to the train.

C. S. Severy of Pasadena has received a telegram from his son at Stanford University saying: "All Pasadena students are here safe. University wrecked."

The new wave motor at Ocean Park, owned by Theodore Rapp, was launched yesterday and is reported to have worked beautifully. Every indication so far points to the success of the machine, which, if it comes up to expectations, may revolutionize present power methods.

Ventura citizens have raised over \$1000 and will send a load of provisions and clothing to the earthquake sufferers in vicinity of San Francisco.

Los Angeles citizens have reached their homes in Riverside yesterday, reporting that during the horrors of the catastrophe, which they say was unthinkable, not a tear was seen on any cheek, the sufferers being too appalled from the awful shocks to weep at their misfortunes.

The lie floating in Los Angeles in regard to an "earthquake" with attendant damage and loss of life at Catalina Island resulted in light travel yesterday, but as the many false reports circulated along the southern coast have been called, it is expected that conditions will quickly revert to normal, and that further falsehoods will be futile.

Redlands has already raised \$15,000 for the San Francisco relief fund.

Riverside last night shipped to San Francisco, in care of the Los Angeles relief committee, a carload of groceries and blankets, to be followed today by another carload of clothing. Up to last night over \$7000 had been raised, with \$10,000 in sight.

At a mass meeting of the Santa Monica Bay Chamber of Commerce \$400 was raised by passing a hat through the crowd. This money, and three carloads of provisions, clothing and bedding will go to the sufferers at San Francisco and vicinity.

Southern Pacific Railroad employees in Santa Barbara propose that all the men employed by that system, from the president down, contribute one day's wages to the relief fund for San Francisco. The idea has seemed to take with everyone, and it is possible that the company will be asked to send the total amount to San Francisco at once; the sum later to be deducted from the pay of the men.

An unknown man at Keenbrook, Calif., was shot and killed yesterday deliberately committed suicide by jumping under a passing Santa Fe train, being ground to atoms. There is said to be absolutely no way of identifying the body.

A carload of bread is among the many things sent by the people of San Bernardino to the victims of the San Francisco fire and earthquake. Three carloads of clothing and provisions will leave that city today for the North. Many contributions are hourly pouring in for the great relief fund.

Louis Codori was shot and killed yesterday by James Black of San Bernardino. Black had entered the room of Miss Sadie Wise and demanded her money. She screamed and Black struck her. Codori rushed to her rescue, being shot in the abdomen by the ruffian. Citizens came in and captured the murderer, and he would have been roughly handled only for the quick arrival of the police.

Oxnard has decided to send a carload of provisions as well as a fund of cash for the needy at San Francisco.

Secretary of War is Authorized to Pick Up Supplies in Accessible Places for the Sufferers and Send Them at Once to Scene of Desolation.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, April 20.—Mr. Tawney (Minn.), from the Committee on Appropriations, moved the following substitute to the Senate joint resolution making appropriations for California sufferers:

Resolved, by the Senate and House of Representatives of the United States of America, in Congress assembled, that the Secretary of War is hereby authorized and directed to provide in open market or otherwise, subsistence and quartermaster's supplies in addition to the supplies belonging to the military establishment, and available, and issue the same to such destitute persons as have been rendered homeless or are in needy circumstances, as a result of the earthquake which occurred April 18, and the attending conflagration; and executing this joint resolution, the Secretary of War is ordered to cooperate with the authorities of the State of California and the Mayors of the cities of San Francisco, Berkeley, Oakland, Alameda and such other cities on the Pacific Coast as may have suffered damage. Be it further

Resolved, that the Secretary of the Treasury, of the Navy and the Secretary of Commerce and Labor, are hereby directed to cooperate with the Secretary of War in extending relief and assistance to the stricken people herein referred to, to the extent of the use of the naval vessels, revenue cutters and other vessels and government supplies under their control on the Pacific Coast.

Resolved, That to enable the Secretary of War to execute the provision of this joint resolution there is hereby appropriated out of any money in the treasury not otherwise appropriated the sum of \$1,000,000 to be expended under the direction and in the discretion of the Secretary of War.

Mr. Tawney explained that the large sum was absolutely needed; that Secretaries of other departments were included so that naval vessels, cutters and the fish commission boat Albatross could be used.

The resolution was adopted within ten minutes of its being reported.

The substitute was reported on the ground that the amount should be doubled and that the Secretary of War should be relieved from any statutory restriction requiring that bids be secured for the needed supplies.

The Senate passed a joint resolution appropriating a million dollars to be used in affording relief to San Francisco sufferers, appropriating \$4000 to pay the expenses of bringing home the bodies of the Keasarge victims. Hittened to an explanation by Mr. Tawney concerning the proceedings of the Democratic Senatorial caucus; heard the first half of an exhaustive speech by Mr. La Follette on the Railroad Rate Bill and witnessed a decidedly spirited encounter between Mr. Tilden and Mr. Hopkins concerning the recent Chicago bank failure.

Millionaire John Singleton is Now in Oakland, "Broke"—With Wife and Sister-in-Law He Flew From Crumbling Palace Hotel—Anxious to Get Home.

(BY THE ASSOCIATED PRESS—A.M.)

OAKLAND, April 20.—Among the refugees from San Francisco who found themselves stranded in this city yesterday were John and Mary Singleton, a well-known couple. Mr. Singleton, a millionaire, his wife and her sister. The party were staying at the Palace Hotel when the earthquake shock occurred on Wednesday morning. Mr. Singleton gives the following account of his experience.

"The shock wrecked the rooms in which we were sleeping. We managed to get our clothes on and got out immediately. We had been at the hotel only two days and left probably \$2000 worth of personal effects in the room. "After leaving the Palace we secured an express wagon for \$25 to take us to the Casino near Golden Gate Park. There we stayed Wednesday. On Thursday morning, we managed to get a conveyance at enormous cost and spent the entire day in getting to the Palace. We paid a dollar a piece for eggs and a dollar for a loaf of bread. On these and a little ham we had to live. We reached Oakland last night on a ferry boat and are now trying to get back to Los Angeles."

Mr. Singleton, like thousands of other people in Oakland, found himself without funds this morning and as there was no bank open and none will be open until Monday, he had difficulty in securing cash until he met someone who knew him. The people who find themselves without money in Oakland today are numerous and all are having difficulty in securing cash, owing to the banks and all big business houses being closed by proclamation of the Governor. Those who are unable to buy food, however, are being supplied by the local relief committees and by the various churches which are being thrown open to accommodate the homeless from across the bay.

### Saloon Robbed.

Burglars broke into the saloon run by Redman & McGinley, Second and Los Angeles streets, Thursday night, and took a silver watch and about \$100 which had been left in the cash register. They also took two or three boxes of cigars. Church burglarized.

A. H. Grier reported to the police yesterday that a burglar had entered the First Baptist Church, near Seventh and Flower streets, and secured a watch and chain and a number of other articles which had been left in one of the rooms.

### Caught By Sheriff.

The hall was decorated with a banner and an abundance of flowers. ### Gasoline—Home Gone.

An explosion of a gasoline stove in the home of G. W. Whitman, No. 1235 Harvard boulevard yesterday afternoon caused the total destruction of the dwelling, with a loss of \$2500. It partially destroyed an adjoining home belonging to Charles Miller. The members of the Whitman family were seated in their dining-room, and had extinguished the fire used to prepare the evening meal on the gasoline stove, which stood in the kitchen. The intense heat in the house finally caused an investigation when the kitchen door was opened the room was found to be a mass of flames. Before the fire could be extinguished it communicated with the Miller home, which was also destroyed, and caused a loss of \$1500.

### BABY IS SAFE.

Kidnaper of "Toto" Smith is Arrested and Child is Reported to His Mother.

Liam McGuire, the kidnaper of two-year-old "Toto" Smith, was arrested yesterday afternoon and the child released to his mother. The kidnaper was caught at No. 448 San Julian street with the child still in her possession. The little fellow was ill and presented a pitiful sight but won the hearts of all the patrolmen in the station when he was taken to police headquarters. He was given into the care of Police Matron Gilbert until the arrival of his mother. Mrs. Smith was overjoyed, and broke down completely when the child was given into her arms.

The only explanation given by the McGuire woman for her act is that she "liked the child and so took it." Detectives have been working on the case since the child was kidnaped Tuesday, and yesterday the woman was located through a woman agent of the police who was roused to action by the offer of a reward.

Liam McGuire is in the City Jail. He bears a bad reputation, according to the police, and has been in trouble several times.

## LARGEST GIFT FOR COLLEGE.

Claremont Institution Gets Seventy Thousand.

Donation Is Land Said to Be Underestimated.

Comes From Woman Who Is Resident There.

(SPECIAL CORRESPONDENCE OF THE TIMES.) CLAREMONT, April 20.—Formal announcement was made this morning of the largest gift ever made to Pomona College.

The gift amounts to \$70,000, and comes from Miss Martha N. Hathaway of this place.

Only about a year ago Pomona College was the recipient of \$40,000 from Andrew Carnegie for a library building. Today's gift comes without any restrictions on the part of the donor, and is to be applied to the general endowment fund of the college. With this additional gift the endowment fund will total \$227,000.

The gift is in the form of an interest in the Palos Verdes ranch, which is located between Los Angeles and San Pedro. The large ranch consists of 17,000 acres and owned by the Bixby family. Miss Hathaway is a relative of the family and owns a large interest in this ranch.

The trustees of the college have placed what is considered a very conservative estimate on the value of the property when they put it at \$70,000. In reality the sale of the property at the price for which it is now held would make the gift several times larger.

The trustees, faculty, alumni and students are overjoyed at the gift from one who has held Pomona College interests very near.

Pomona College has been indebted to Miss Hathaway on several former occasions for smaller gifts. Last commencement she gave two valuable documents to the Pomona College library. One was an original manuscript of George Washington's, and another one of Benedict Arnold's letters.

## "TIMES" STAFF AIDS IN GIVING RELIEF.

[BY DIRECT WIRE TO THE TIMES.]

OAKLAND, April 20.—(Exclusive Dispatch.) The Times staff this morning secured a special permit from Gov. Pardee to enter San Francisco, and spent the entire morning among unfortunates, giving encouragement and directing people to places of safety and points where food could be secured.

Two dozen photographs were taken, showing terrible scenes of suffering.

In one locality rioters had broken into a wine vault, consuming the liquid, which fast turned them into drunken imbeciles, ready to commit murder at the slightest provocation.

### UNIVERSITY STUDENT WOUNDED.

A university student named Aiken was shot while attempting to quell a riot in a saloon. His leg was amputated above the knee. He may die.

An old man, while attempting to enter his home, to save belongings, was challenged by soldiers. He refused to halt, yelling, "It's my own building, and I can do as I please."

A shot rung out, and the old man dropped dead with a bullet hole through the heart.

### MISSION STREET INCIDENT.

Late last night thief on Mission street attempted to steal money from pockets of sleeping victims, but passing soldiers shot him in his tracks. Bands of soldiers are out with wagons in the Mission, the western addition and beach district, gathering dead bodies.

### TEMPORARY BURIALS.

Seventy-five were temporarily buried near Washington Park. Thirty-five other bodies are lying on one spot near the beach, with little chance of being given burial.

On account of heat decomposition is rapidly setting in.

Efforts made by The Times man to secure photographs of these scenes were fruitless owing to terrific heat.

### BURYING GOODS.

Excavating and burying all sorts of goods was done in different parts of the city. Bicycles, sewing machines and pianos were among the goods saved in this manner.

Yesterday afternoon a boy, supposed to be J. B. Merry, was knocked down by a passing wagon. The wheels passed over his neck, causing instant death.

[BY THE ASSOCIATED PRESS.—A.M.]

OAKLAND, April 20.—At a meeting of the bankers this morning, Mr. Lynch of the First National Bank reported that a committee had examined all the bank and safe deposit vaults in San Francisco and found them all intact. This makes it certain that the money and papers on deposit are all safe.

### CITY RECORDS FARE WELL.

It was also reported that the books and records in the San Francisco Hall of Records escaped serious injury.

\$50,000 loss.

## LODGING-HOUSE FALLS; OVER HUNDRED KILLED.

[BY THE ASSOCIATED PRESS.—P.M.]

SAN FRANCISCO, April 20.—A three-story lodging-house at Fifth and Minna streets collapsed and over seventy-five dead have been taken out.

At least one hundred people were lost in the Cosmopolitan Hotel on Fourth street.

### OTHER LANDMARKS GONE.

The only building standing between Mission, Howard, East and Stewart streets is the San Pablo Hotel, which is occupied and running.

The shot tower at First and Howard streets is gone. This landmark was built forty years ago.

The Risdon Iron Works is partially destroyed. The Great Western Smelting & Refining Works escaped damage; also the Mutual Electric Light Works, with slight damage to the American Rubber Company and Vista Gas Engine Company. Folger Brothers' coffee and spice house is uninjured, and the firm is giving away large quantities of bread and milk. Many are dropping dead from the heat and from suffocation.

### BRUNSWICK HOTEL—MANY DEAD.

Over one hundred and fifty people are reported to have died in the Brunswick Hotel, Seventh and Mission streets.

## TAFT WILL SPEND A MILLION MORE.

*Senators Feelingly Indorse His Contemplated Action for San Francisco—Army to Buy Rations in Los Angeles—Funston Fears Famine.*

[BY THE ASSOCIATED PRESS.—P.M.]

WASHINGTON, April 20.—Secretary Taft, while testifying today before the Canal Committee, read a message from the War Department that another million dollars is needed to buy supplies for San Francisco sufferers.

The Secretary, after reading the message, said: "We have already contributed for \$1,500,000 worth of stores and expenses incident to the work. This message, of course, should go to the House at once." He said that he would send it there for action.

"If I am guilty of an impeachable offense (referring to the law prohibiting expenditures in excess of appropriations) in connection with this disaster, I shall crave your indorsement of my course," he said, in explanation of his desire to do everything possible for the sufferers without delay.

"Congress will acquit," said Senator Taft, and others assented feelingly.

TO BUY RATIONS HERE. Orders have been issued by the War Department to army officers to purchase at Los Angeles immediately 200,000 rations, and at Seattle 300,000 rations, and hurry them to San Francisco. The department was informed that there are 100,000 rations at the Presidio, and that thousands of refugees are being sheltered there, and that the army is feeding them. One million rations already have been started to San Francisco by the department.

The department this morning received this dispatch from Maj. Devo, superintendent of transport service, dated San Francisco: "Answering yours, am, I am using 2000 common wall tents in store at Presidio, also 1000 buckets and 1000 blankets. Will continue issuing until stock is exhausted. Lack of water is very serious. Can probably take care of tentage as fast as it arrives. No stoves needed, owing to glowing cinders. Warehouses in sea. Little danger at Presidio. All storehouses in city totally destroyed,

efforts from outside only can prevent further suffering. Weather now fine and it is expected to remain so. I request that everything possible be done in the way of food supplies, tentage and blankets. No more troops needed at present."

### MINT OFFICIALS MISSING.

The Treasury Department has so far failed to locate the assistant treasurer or the deputy at San Francisco, and grave fears are entertained that they have lost their lives. The only person connected with the Sub-Treasury who has been heard from is J. H. McClure, an assistant bookkeeper. He has wired Secretary Shaw from Oakland under yesterday's date, as follows:

"San Francisco completely destroyed by fire, following earthquake. Sub-Treasury burned yesterday afternoon. Vault appears intact. Found no guards. Finally communicated with Gen. Funston and secured detail of one company of soldiers. Unable to locate assistant treasurer and therefore acted on own responsibility. Chaotic conditions. Mint building and vaults safe. Please arrange with Secretary of War for military protection to treasury vault."

### SHAW MAKES INQUIRIES.

Secretary Shaw has wired the superintendent of the mint and also Gen. Funston for information as to what, if any, national or private banks are in a position to do business and to suggest means of relief.

The Navy Department today received a telegram from Admiral McCalla, commander of the Mare Island Navy Yard, stating that the warships under construction at the Union Iron Works are not injured. He also stated that the loss of life is much exaggerated.

### KAISER IS SYMPATHETIC.

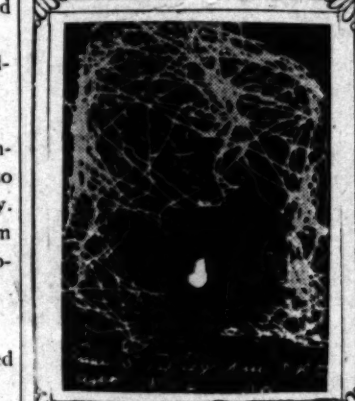

The German Ambassador, Baron Speck von Sternburg, called on the President yesterday and extended the condolences of the German Emperor. After leaving the White House the Ambassador authorized the following expression of sympathy to the American people:

"The German Emperor has requested me to express to the American people his profound and most sincere sympathy over the terrible disaster which has struck the western part of the United States. The Emperor feels sure that this catastrophe will create widespread sympathy and mourning among the German people."

caused by a heavy fog which came up during the night and also by dew.

"Chinamen are in evidence about the ferry house by the thousands, all of them waiting anxiously to get out of the city, and all of them carrying big bundles."

"The principal food of those who remain in the city is composed of canned goods and crackers."

"The refugees who succeed in getting out of San Francisco are met as soon as they enter the neighboring towns by representatives of bakers, who have made large supplies of bread and who immediately hand them out to the hungry people."

### Survival Of The Fittest

A Righteous Crusade Against Patent Medicines Containing Inert and Dangerous Drugs.

A vigorous war is now being waged against the manufacture and sale of proprietary articles which are found to contain substances injurious to health and subversive of the public good. Nearly all the great nations of the earth, including the United States, are engaged in this struggle, which, it is predicted, must result in completely purging the markets of the world of an evil so deep-rooted and far-reaching in its consequences. Hastily Germany has, in this movement, taken the initiative, and has placed on her statute books the most stringent laws against the sale of patent medicines containing injurious or noxious drugs. She has established a National Board of Pharmacists, composed of eminent chemists, to analyze and pass upon the merits of all proprietary articles before being offered for sale. Warner's Kidney and Liver Cure has passed this severe German test, and, as a result, is today the only kidney and liver cure permitted to be sold in the German empire. It is an absolutely pure vegetable compound, and pronounced such by eminent chemists. Each package bears the certificate of an analyst of the New York State Board of Health, with the words, "entirely free from all poisonous and deleterious substances." Assuredly this is a flattering compliment to the curative worth of this great American Kidney and Liver Cure, and ought to insure with the American public an increased confidence and a wonderfully increased sale. Since purity and value are needed in the patent medicine we purchase, we note with pleasure this successful outcome of Warner's Safe Kidney and Liver Cure.

The marked success of Warner's Safe Kidney Cure in passing the rigid tests of the foreign analysts and microscopists will be hailed with gladness by all suffering from kidney and liver diseases, as well as by the multitude who have been cured and are today living witnesses of its healing power and high standard of excellence. A sample bottle of this wonderful remedy will be sent absolutely free of charge to any reader of The Times who will write the Warner Safe Cure, Rochester, N.

MAYOR SCHMITZ ISSUES PROCLAMATION TO PEOPLE.

Warns All Against Building Fires in Their Homes Until Flues Are Inspected—Congratulates Citizens on Splendid Fortitude Displayed During Terrible Disaster.

[BY THE ASSOCIATED PRESS.—P.M.]

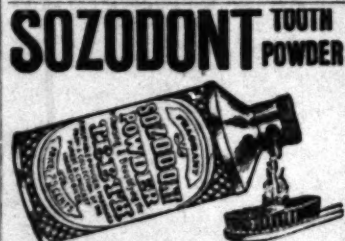

SAN FRANCISCO, April 20.—Mayor Schmitz issued the following proclamation today: To the Citizens of San Francisco: The fire is now under control and all danger is passed. The only fear is that other fires may start should the people build fires in their stoves, and I therefore warn all citizens not to build fires in their homes until the chimneys have been inspected and repaired properly. All citizens are urged to discontinue the building of fires. I congratulate the citizens of San Francisco upon the fortitude they have displayed, and I urge upon them the necessity of aiding the authorities in the work of relieving the destitute and suffering. For the relief of those persons who are encamped in the various sections of the city, everything possible is being done. In Golden Gate Park, where there are approximately 200,000 homeless persons, relief stations have been established. The Spring Valley Water Company has informed me that the Mission district will be supplied with water this afternoon, between ten and twelve millions of gallons daily being available. Lake Merced will be taken by the Federal troops, and that supply protected.

### CITRUS UNION DONATION.

The prices ranged from \$2 to \$25 per box. Many buyers donated their purchases, which were sold again and again. The total amount realized was not announced, but it will exceed \$2500.

### NEW CITY TO RIVAL PARIS.

Banker Hellman Very sanguine as to San Francisco's Future. [BY DIRECT WIRE TO THE TIMES.] SAN FRANCISCO, April 20.—[Exclusive Dispatch.] I. W. Hellman, Jr., the banker, was one of the first to pass through the ruined business portion of the city today. He was very sanguine as to the future. He said: "These ruins will be the site of a new city, one which will rival Paris in beauty, and withal twice as substantial. "The banks will weather the storm and before many weeks the city will throb with life and activity which it never knew before."

BIG BOXING CARNIVAL HAS BEEN  
FULLY ARRANGED.

World's Champions Eager to Assist  
Stricken Inhabitants of the  
Northern Metropolis—Affair Will  
Be in Hands of Sporting Writers.  
Sanctioned by Committee.

Arrangements were completed yesterday for the great boxing benefit for the San Francisco sufferers, and the matter is now in the hands of the sporting writers of the various newspapers, assisted by Tom McCarrey, manager of the Pacific Athletic Club.

A committee called on the Chamber of Commerce yesterday and that body gave official recognition of the affair and also set the date for the fight event, which will be next Tuesday evening at the pavilion of the Pacific Athletic Club.

Every fighter of note in the city has tendered his services gratis, and Manager McCarrey gives the pavilion free of all cost. The entire affair will be in the hands of the newspaper men, assisted by Tom McCarrey, and from now on the matter will be pressed until the entire house is sold out.

The carnival will be something new in its line, and it is planned to have the ladies present. The boxers will appear in stage costume, and it is almost certain that Mayor McCarrey will act as referee, while other city officials will officiate as timekeepers, etc.

The array of talent to appear is the greatest ever brought together under one roof. Three recognized world's champions will appear in the same ring in one night, while the retired heavyweight champion of the world will also appear in a boxing stunt.

The pairing of the contestants has not been completed as yet, but those who have signified their intention of appearing are as follows: Jim Jeffries, retired heavyweight champion of the world; Tommy Burns, present heavyweight champion of the world; Battling Nelson, lightweight champion of the world; Abe Attell, featherweight champion of the world; and George Blaise, instructor at the Van Dusen Athletic School.

There will be either three or four round bouts arranged and the exhibition will be of the highest order.

It has been arranged that no smoking be allowed in the building and that arrangements be made to accommodate ladies, who will find nothing to either shock them or that is improper. The bouts will be clean, bloodless and scientific and friendly.

Already many parties have come forward and offered big sums for boxes and front seats. The ring will be surrounded by forty-four boxes of four seats each, and these will be offered for sale today. Tickets will be placed

on sale at various business houses, and the scriber will canvass for the sale seats.

The price of admission will be \$2 for the cheapest seat, and care will be taken that no objectionable person gets one.

It is estimated that at least \$20,000 can be realized in this manner, and at the same time many persons who never saw a boxing bout can attend and gain an idea of what it is like.

ALL GIVE GLADLY.

(Continued from First Page.)

Business men and merchants worked beside their clerks. Bankers and lawyers handled hammers and rolled boxes in spite of sorely bruised fingers. Long before noon it became necessary to fix a slide for sending the boxes down the stairs, where they were received and piled on the waiting drays.

Buzzing like bees in a crowded hive were those in the upper rooms, there were no drones and the workers had all they could do to pack the barrels, cases and boxes of good things to eat. The sight was goodly, and the food was the best.

AVAILANCE OF BREAD.

The city's best worked beside the humblest with the one purpose of packing as rapidly as possible the marvelous store of provisions. Thousands of loaves, just out of a hundred ovens, came pouring in, and the women packed them daintily in clean white paper. Twelve thousand loaves came, then the count was lost in an avalanche of bread stuffs, all of which was neatly packed.

A banker's wife worked at the side of an elderly working woman. A tiny maid, poorly dressed, but who wished to work, was a member of the relief corps. Society women took off kid gloves and with jeweled fingers wrapped buns, sandwiches and fruit. These were loving hands and the goods were tenderly packed by the hurrying women and girls, whose hearts were so full of love for the tired refugees, fleeing from the fire and pestilence.

TANGIBLE LOVE.

There was a memorable scene when the lunches began to arrive from the city schools. More than 35,000 lunches, carried by the pupils to the several schools of Los Angeles, began to pour into the Native Sons' headquarters shortly after the noon hour. How the women worked. Each lunch was sorted

and repacked securely for transmission North.

Then it was that the real love of the thousands of little folk was shown. Dainty delicacies, dear to the heart of the youngster who carried the lunch, came to headquarters undisturbed. Luscious tarts, which at any other time would have been the sorest temptation, were a part of many lunches. There was fruit and candy, and every conceivable kind of goodies baked by fond mamma.

Wrapped in a clumsy little package of tissue paper, and marked "for baby" came a tiny Easter rabbit. The kind the children love so well. The candy bunny was stuffed in a pathetic lump under the lid of the lunch box.

BASKETBALL BENEFIT.

TWO GAMES THIS EVENING.

The basketball championship of Southern California will be decided at Turner gym on South Figueroa street near Pico street, tonight by a double-header match. The competing teams will be the Whittier College and Y.M.C.A. Meteors in one game, and the Turner and Y.M.C.A. Maroons in the other game. The games are to be played under the auspices of the Citizens' Protective League, and the entire proceeds will be given to the relief fund for San Francisco.

SPORTS DISAPPOINTED.

There was considerable disappointment among the sporting class yesterday because the Attell-Nell fight was postponed indefinitely from last evening, but the sports very naturally accepted the matter gracefully. In view of the great calamity that has befallen San Francisco, the postponement was the proper thing to do under the circumstances, for thousands of people are suffering in our northern sister city and the Los Angeles press are not in a mood to attend a boxing contest just at present. Notwithstanding this there is every assurance that there will be a monster crowd at the big benefit at the Pacific Club on Tuesday night, when all the big boys will box for the fire sufferers.
